## **EXTENDING HOSPITALITY**

Passengers using Terminal 3 can look forward to using another new facility planned for Changi Airport - the hospitality of a 9-storey Crowne Plaza Hotel located adjacent to Terminal 3 and sitting directly above Terminal 3's North Basement Car Park. Designed with 350 guest rooms, the hotel offers full-service facilities, and indulges passengers with a wide choice of amenities, including restaurants, meeting rooms, swimming pools, health and fitness club and a spa.

This Airport Hotel is linked directly to Terminal 3 at both the landside departure and arrival levels and is also within easy access of Terminals 1 and 2 through the People Mover System. Travelling from the airport hotel to other parts of Singapore is also made convenient by way of the airport MRT station, which is also connected to Terminal 3.

## **FACTS AND FIGURES**

Built at a budget of S\$1.75 billion, Terminal 3 will raise Changi Airport's handling capacity to 64 million passenger movements per year with a total of 92 aircraft stands equipped with aerobridges and more than a million sq m of passenger terminal floor area.
